### Ground Breaking Ceremony Held for Dover Bluff Area Fire Station

**Woodbine, GA – October 22, 2008:** On Tuesday, October 28, 2008 at 10:00 a.m., a ground breaking ceremony was held where Fire Station 19 is to be constructed in order to provide a higher level of service in the Dover Bluff area of Camden County. Fire Rescue Chief Dennis Gailey welcomed everyone to the ceremony and gave a brief introduction and history of this project. Among the people he thanked were the citizens of Dover Bluff, Sanctuary Cove Development, Creekside Development, and W. H. Gross Construction Company. Guest speakers included Steve Howard, County Administrator, and Chair Preston Rhodes, District 1 Commissioner. "I appreciate the effort you have made to make the Dover Bluff Fire Station a success. This is truly a dream come true for the citizens of North Camden County. Today's dedication was an example of the County's effort to reach the entire community of Camden" said Chair Rhodes after the ceremony.

In 2006 the Creekside Development donated Camden County property at 4911 Dover Bluff Road for

Commissioner, District 5

the purposes of constructing a fire station. In 2007 the site work began to include clearing of the land and elevating the property. This additional fire station will provide a reduction in response time by more than 50% and lower the current ISO rating (10) to equal at least 50% insurance savings for the residential and commercial businesses in the Dover Bluff area. This fire station could also improve the presence of law enforcement through collaboration and potentially serve as a voting precinct for Camden County. The contractor for this project is W. H. Gross Construction Company. - END -
