**FOR IMMEDIATE RELEASE**

## **Spaceport Camden Named a Top Infrastructure Project in the United States**

**WOODBINE, GEORGIA – May 7, 2019** – Global infrastructure strategy firm, CG/LA Infrastructure, has named Spaceport Camden to its [Strategic 50 U.S. Infrastructure Projects list](#). The list identifies, selects, and ranks the priority infrastructure projects in the United States essential for creating jobs, competitiveness, and economic growth. All of the projects selected by CG/LA Infrastructure are positioned to harness strong support from throughout the government, labor, business, and the user community and all are projects that can, and should, start in 2019.

Spaceport Camden will be recognized at CG/LA Infrastructure's 3rd Blueprint 2025 Leadership Forum in Washington, DC an event featuring high-level US Government Officials speaking on upcoming US infrastructure policies, including: Transportation Secretary Elaine Chao and FAA Administrator Daniel Elwell.

"Georgia is already the number one state to do business and now Spaceport Camden is a top 50 infrastructure project in the United States. This should send a strong message to the rapidly growing commercial space industry that Camden County, Georgia is the best place in America to launch a rocket and a space company. Georgia is primed to become the epicenter of commercial space flight in the United States," said County Administrator and Spaceport Camden project lead, Steve Howard.

CG/LA Infrastructure is headed by Norman Anderson a recognized expert on infrastructure deal flow in the US and internationally, aimed at increasing growth, sustained job creation and wealth in economies worldwide. In 2017, the Trump Administration tapped Anderson to prioritize projects for its \$1 trillion infrastructure plan.

STEVE L. HOWARD  
County Administrator

JOHN S. MYERS  
County Attorney

LANNIE BRANT  
Commissioner, District 1

CHUCK CLARK  
Commissioner, District 2

JIMMY STARLINE  
Commissioner, District 3

GARY BLOUNT  
Commissioner, District 4

BEN CASEY  
Commissioner, District 5

“From the Space Force to the National Space Council to a renewed commitment to returning to the moon, reclaiming America’s leadership in space is a strategic priority of the Trump Administration,” said Anderson. “To meet future launch demand and keep the United States competitive, we need to fast track projects like Spaceport Camden.”

***More about Spaceport Camden:*** Our Vision is to develop a successful world class spaceport through a public-private partnership that establishes Camden County as the Commercial Space Center of the United States. Our Mission is to create the premier spaceport strategically positioned to provide economic diversity with a competitive advantage for the space sector, Camden County, the State of Georgia and the United States of America. For more information, please view our website at [www.SpaceportCamden.us](http://www.SpaceportCamden.us).
